### Junior developer intern at **eDorpon** [02/2020-08/2020] Mirpur DOHS, Dhaka-1216

- I had responsibility for software designing and development.
- Developed a responsive software with HTML5, CSS3, JavaScript (React Js, jQuery, Ajax).
- Built an MMS (Mess Management System) and GMS (Grameen Marketing System) software with Php and the Framework Laravel.
- Worked with UI/UX design team to improve existing applications and increase conversion rate.
- I had also contributed to this team as a responsive and UI designer.

### **HS JAPAN (Recruitment website)**

Full stack developer at HS JAPAN

**Ongoing website** (I try to make this website oneself).

Using technology: JavaScript, React, Redux, Node JS, Next JS, Bootstrap, and MongoDB.

### **Creative Agency (MERM)**

- By designing the user interface with the best color combination so that every user can feel very comfortable. I used the technology Bootstrap and CSS.

- This website fully responsive for this effect, every user feels very comfortable for the any device such as mobile, tablet and laptop etc.
- Login user can order their products by the payment gateway or cash on delivery.
- Admin can see all order state, update state, revenue state, and product quantity. Admin can edit, delete, and update every part of this website.

**Used technology:** React, React Router, Nodejs, Context Api, Bootstrap, firebase authentication, firebase, Heroku, etc.
